

**BRITISH COLUMBIA – PRINCE GEORGE**

*Hunting area is comprised of two different locations encompassing over 2 Million Acres. Both Locations offer Black Bear, Grizzly, Moose and Wolf. In addition the Omineca Mtn. Camp also offers Mtn. Goat and Mtn. Caribou.*

*The first area known as Carp Lake is located within a provincial park. Deluxe lodge where meals are served is comfy to relax in at the end of the day. This is surrounded by cabins where the clients stay in for their hunt. This hunt location is only accessible by boat. Moose hunts are conducted by boat on interconnected lakes with the option to fly by floatplane to one of three other remote lakes in the area. Black Bear and Grizzly hunts are spot & stalk and offer very high success rates. Harvesting a color phase black bear is about 30% and black bears average 6'8" nose to tail.*

*The second location is located in the Omineca Mountain Camp area of the Rocky Mtns. Here also you can stay in the Lodge and watch Mtn. Goats from the deck with your spotting scope. Clients can also stay at one of the tent camps on a nearby lake at the base of the Kaza Peak. Depending on the hunt selected, one can expect to stay in a spike camp overnight if necessary. Outstanding area for moose in the 45" to 50"+ range. 2004 is the second year our outfitter is offering Mtn. Caribou hunts. Hunters will ride 2 hours to an abandoned mining camp and hunt the alpine area for Mtn. Caribou with Mtn. Goat as an option. Both of these hunts the client should be in reasonable shape.*
